CAREER OBJECTIVE:

Believing with whatever knowledge I possess and the skills I have developed throughout my industrial experience, my only objective is and will always be to shine bright, bring in the success and the best of a reputation for organizational and my personal growth.

EDUCATIONAL QUALIFICATION:

Degree	Stream	Institute	Board/University	State	Percentage	Year
B.E.	Information Technology	Rajiv Gandhi Inst. Of Technology.	Mumbai	Maharashtra	62.04	2014
Diploma	Computer Engineering.	Babasaheb Gawde Inst. Of Technology	MSBTE	Maharashtra	75.37	2011
S.S.C.	-	G.E.S English Medium School	Mumbai	Maharashtra	74.71	2008

WORK EXPERIENCE:

Name of the organization: TechSevin.

Designation: Web Developer

Duration: 2 Years 8 Months and present.

Projects Worked For:

1) Title: www.sultan-center.com

Description: The Sultan Center, or TSC, is one of the largest grocery retail chain with its headquarters in Kuwait, spread across Lebanon, Jordan, Oman, and Bahrain. It has facilitated customers with the web store and also the Android and iOS mobile applications making the difference in shopping online. Its superb features include multi-search, multiple shopping lists, customized notes, delivery timeslots, special instruction for the products in cart and an option for the delivery comments.

Technologies: PHP MVVM with OOP, XML, JSON, JQuery, MySql, Css, HTML.

Framework: Magento 2

Duration: 6 Months and present.

Team Size: 5

Role: Developer (Portal and web services for the android and ios mobile apps).

Responsibilities: Coding, Unit testing.

Impatiently passionate about my technological growth.

2) **Title: www.aireo.in**

Description: It is a web-based B2B E-Commerce complete travel portal withstanding the 4th position PAN India level. Being one of the busiest distributors of the very popular traveling channel of India i.e. IRCTC, which includes a minimum of 8-10 tickets being booked in a minute's time. Other than that it allows its agents to book air tickets, hotels, buses, mobile and Direct-to-Home (DTH) television payments, entertainment parks (adlabs imagica / aquamagica), Internet Café System (ICS) rail ticketing services and visa/holiday tour packages on request. Ensuring its agents with a hassle free experience and good commission structure.

Technologies: PHP MVC with OOP, XML, SOAP, REST, JSON, JQuery, MySql, CSS, HTML.

Duration: 2 Years

Team Size: 3

Role: Developer, Technical Lead.

Responsibilities: Project planning and leading, coding, Unit testing, Client Coordination

3) **Title: Aireo's Rail Connect**

Description: As per my writing about the project above, to IRCTC www.aireo.in is a 3rd party vendor and hence according to the policy of the system, it requires an agent to lend his machine address to book tickets. Transporting the MAC Identity via a client (browser) to www.aireo.in is what this software simply does. Initially, applets served the purpose, but moving on when the web browsers like Google Chrome started ruling out the support for same, there was a keen requirement to develop software which could make Mac-Id - detection & its transport easier.

Technologies: JAVA – Advanced Window Toolkit (AWT) using Net beans.

Duration: 5 Days

Team Size: 1

Role: Developer

Responsibilities: Project planning, coding, Unit testing, Client Coordination

4) **Title: Return Bhada**

Description: A web portal which had been started off as an initiative to save the fuel while the truck offloads at a point and on its return journey have to travel sometimes empty. So by using the system, one can easily find a transport and by this, the truck owner, its driver and the fuel expenses for return journey are saved.

Technologies: PHP MVC with OOP, JSON, JQuery, MySql, CSS, HTML.

Duration: 2 Month.

Team Size: 2

Role: Developer

Responsibilities: Project planning, coding, Unit testing, Client Coordination

Impatiently passionate about my technological growth.

5) Title: www.spica-festa.com

Description: It was an informative website about the food festival initiated and hosted by Daffodils Restaurant.

Technologies: Php Wordpress, JQuery, HTML, CSS.

Duration: 7 working days.

Team Size: 1

Role: Developer.

Responsibilities: Project planning, coding, Unit testing, Client Coordination

Name of the organization: Sociomarker Pvt. Ltd.

Designation: Trainee Web Developer

Duration: 6 Months

Projects Worked For:

6) Title: www.indiafastener.com

Description: Initially was a web portal for getting the fastener measurements for nuts and bolts. It included calculating the weight vs. quantity of the fastener measurement and vice versa. Currently the same has turned to the mobile app only.

Technologies: PHP, JSON, HTML and CSS.

Duration: 2 months

Team Size: 2

Role: Developer.

Responsibilities: Project planning, coding, Unit testing, Client Coordination

7) Title: www.miamia.co.in

Description: Developing an admin panel to control the data, users and the business listings of customers. The actual portal is based on the concept similar to just dial, which provides the business listings for the customers across the nation.

Technologies: PHP Oop MVC based, JSON, JQuery, HTML, and CSS.

Duration: 1 month

Team Size: 2

Role: Developer.

Responsibilities: Coding and unit testing

B.E FINAL YEAR PROJECT:

8) Title: Virtual Learning Environment

Description: VLE is a web-based application that maintains academics of the students. It includes facilities like online MCQ based examination, events, posts, embedded videos, enrolling a particular subject, uploading of different study materials, assignments, attendance, and exam notice at a single place. Admin registers students and teachers, adds subject by assigning a dedicated teacher to it. Teacher/Faculty and students can use the system functionalities after the registration process.

Technologies: PHP OOPs based MVC pattern architectural framework (Codeigniter), JSON, JQuery, HTML, and CSS.

Duration: Aug 2013-April 2014

Team Size: 4

Role: Developer.

Responsibilities: Coding, documentation and unit testing
